### Spotlight on Year 3 - Stone Age Day

Year 3 are really looking forward to their Stone Age Experience Day next Thursday (2/12/21). This half term, they have been learning all about early life in Briton and how it changed throughout time. We are all really excited to dress up as someone from the Stone Age and spend the day taking part in different Stone Age workshops.

### Art

During our art topic in Year 3 this week we have been exploring using different types of lines, in particular continuous line drawings to draw fossils. Next week we will be using our drawings to create prints.

### Children In Need

Last Friday everyone really enjoyed drawing on the spotty cars (even the adults!) in support of Children in Need. The 4 schools involved and the South Manchester Approved Driving Instructors (SMADI) raised a fantastic total of £1178.26 for Children in Need!

It was amazing to see everyone supporting Children in Need last Friday and coming to school in their spots! Each class also completed a sporting challenge to raise money. This is a fantastic achievement that everybody should be really proud of!

### A Big Thank You

A big thank you to another kind parent of one of our Reception children who has generously donated waterproof poncho's for Reception.

### RunPudsey

Well done to everyone who took part in the RunPudsey event. You raised an amazing £534! For anyone who raised £10 or more, a medal is on its way to school for you. Keep an eye out for them in an assembly soon!

### Nursery - Bring a stick to school

Remember to bring your special stick to school on Monday! It can't be too big, too small or too wriggly! We can't wait to see your perfect sticks!!!

### Staff Shout Out

Big staff shout out this week to Mr Alfonso, who always delivers amazing PE lessons and After School clubs for our children. Exercise is really important for our physical and mental health and Mr Alfonso always encourages us to exercise as much as we can to stay healthy. Thank you Mr Alfonso!

### Year 4 Science

Children in year 4 have been investigating the melting points of different solids as part of their science topic changing states. They melted wax, chocolate and butter and observed which melted the quickest. They discussed the possible reasons why different materials have different melting points and how materials change from a solid to a liquid.

# STARS OF THE WEEK

NURSERY	<i>Luna G</i>	<i>Ezra C</i>
RECEPTION	<i>Kyron R</i>	<i>Charlie W</i>
YEAR 1	<i>Isla - Rose V</i>	<i>Roman McN</i>
YEAR 2	<i>Pixie R</i>	<i>Scarlett W</i>
YEAR 3	<i>Bonnie F</i>	<i>Harry V</i>
YEAR 4	<i>Caeden G</i>	<i>Taylan J</i>
YEAR 5	<i>Lola H</i>	<i>Max W</i>
YEAR 6	<i>Amy A</i>	<i>Mia P</i>
